

The TL300DK Mobile is an innovative product made by Fam International. After intensive research and development in the production line of the TL serie inkjet printers based on HP[®] Thermal inkjet technology, we are now able to introduce the fully versatile, cable-free TL300DK Mobile, thus marking the beginning of a new era in hand-coding.

SERIES TL300DK Mobile

TL300DK Mobile Specifications

Our NEW product is a portable, manual, ultra-compact and light INK-JET printer equipped with HP[®] 45 Thermal inkjet cartridges; it is battery powered. This unique device - weighting only 980 grams has been created to satisfy users for whom the freedom of product marking, coding and labelling in terms of place and time is the fundamental criterion. It is also the device for users who demand low purchase cost, cost-effective operation. However, the model TL300DK Mobile offers all basic capabilities of INK-JET type printers. The TL300DK Mobile replaces antiquated hand coders (such as stencil machines, stamps and roll coders). Making durable and legible prints on a variety of types of surface non-contact marking (print) technology automatic update of the date and time possibility of editing and printing texts and graphics symbols with the use of Windows[®]

Technology:
