Famjet DK Stylon

Portable, ultra-compact, wireless
and lightweight ink-jet printer,
doesn't require any conveyor!

On the basis of our experiences in the production of Thermal Ink Jet printers, we are glad to announce the introduction of the new FAMJET Stylon, an innovative portable wireless printing device in which the powered mobile printhead enables to print on a large range of porous and non porous surfaces, multiline messages in a printing area of 100 mm. up to 25,4 mm.

 Inkjet Technology

The powerful software enables to edit and print messages containing text, date, time, 1-D and 2-D barcodes, numbers and logos. Portable, wireless (battery powered), ultra-compact and 1 kg. only heavy, the new FAMJET Stylon is a printer based on the thermal ink jet technology and equipped with disposable cartridges containing water or solvent base inks in a large range of colors (including white and yellow). Stylon is the perfect replacement for stencils, stamps, roll coders and other obsolete contact printing systems.

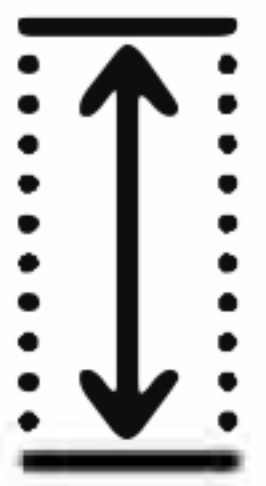

Technical Specifications

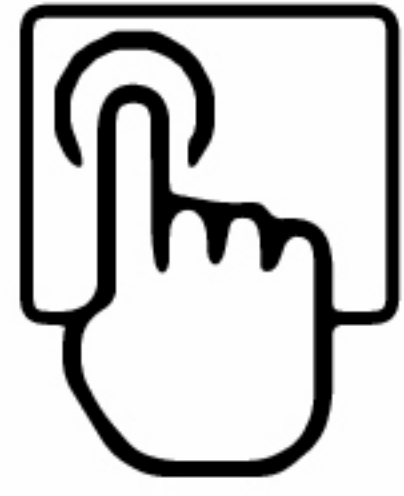

FamJet Stylon Mobile
